

RESCUED

FROM WASTE TO WONDERFUL

RESCUED

LOOKBOOK 2016-2017

Look at the world through positive eyes and you'll see treasures everywhere. That's how we create RESCUED design. We transform leftovers and waste into wonderful originals. Surprising beauties with a good story. Sometimes as limited edition, the RESCUED creations get a new life with visible tracks of the old life. Happily manufactured by skilled craftsmen with disabilities.

Because there's great value in everything and everyone. From waste to wonderful.

THE BEST THINGS IN LIFE ARE USED, LOVED AND RESCUED

1

THE SWING SWING

This swings! Made of recycled rope and old scaffolding-beam. Construction workers used it to climb up and down. And now you nicely rock back and forth!

PRODUCTION	HANDMADE
MATERIAL	RECYCLED ROPE
RESCUED	OLD SCAFFOLDING WOOD
SIZE	Ø 30 CM + LENGTH ROPE 3 M

2

THE STORAGE TIN

Once meant to store glue, oil or paint. But rejected because of scratch or little dents. Now superb for toys, sports stuff or your stinky socks...

DIAMETER	28 CM
HEIGHT	29 CM
RESCUED	REJECTED TINS
VOLUME	16 L

THE PAPER POT

Old news is only old ... when you throw it away but why not stay up-to-date with these pots from newspapers?

HEIGHT	16 AND 19 CM
DIAMETER	16,5 AND 21 CM
QUANTITY	SET OF TWO
RESCUED	NEWSPAPER + CAR TIRES

THE GREASE LIGHTNING

Why waste used cooking oil from restaurants when it can bring you cosiness without even a smell...

COLOR	CREAM WHITE
POT	RESCUED PICKLE JAR
RESCUED	WASTE COOKING OIL

2

3

AVAILABLE IN
TWO SIZES AND WITH
DIFFERENT CORDS

THE PRODUCTS YOU KNOW AND TRUST

THE PICKLE LIGHT

Contributing to a better world
can be as easy as flicking a switch:
made from recycled pickle jars to
bring you light.

1

THE SHOWUP LAMP

Made from wood used for stands on Amsterdam fairground. We picked up the pieces to bring you light. Fair deal!

2

THE MAGNET LOVESONGS

Heart-warming magnets. Of old music books full of sing along songs, tear-jerkers and love songs. They will never be forgotten.

3

THE TABLET BLOCK

Scrap wood spices up your device.... so your tablet or phone looks like the latest edition.

5

THE MAGNET BOTTLENECK

Cute bottleneck magnets. Directly from the bottle. Nice and always convenient. For instance on the fridge.

6

THE PICKLE LIGHT

Contributing to a better world can be as easy as flicking a switch: made from recycled pickle jars to bring you light.

4

THE MEMORY BOARD

This solid magnet board is made out of the lids of old oil vessels. Sturdily cleaned up and saved from the scrap-heap. For example above your desk, in the kitchen or at the office.

IT IS NOT RECYCLING, IT'S REUSE

1
THE
HANGOVER

RESCUED	USED COFFEE
DIAMETER	13 CM

HOW WE WORK

RESCUED aims to work with new and enduring manufacturers and purveyors of the local. In a world that is seemingly ruled by globalization, mass production and the cheapest of the cheapest, a growing number of consumers are seeking out the local, and thereby the authentic, the storied, the eco-friendly and the obscure. RESCUED wants to reach these consumers through retailers which support this philosophy.

FROM WASTE TO WONDERFUL

Whether good or bad, the passing decades all leave impressions on the development of design. If we all do our part, our generation's mark will not only be looked upon favourably, but also praised for its consideration to the environment. Contributing to both. Dutch label RESCUED relies primarily on used materials, using imagination and refined skills to upcycle each into a design that will add richly to the home. And manufactured by skilled craftsmen with disabilities, RESCUED's collections also make positive steps for society, keeping an encouraging focus from start to finish.
